GAIN

GAIN

**Annual gather with Communicators,
IT specialists,
Pastors, and
Church administrators.**

Generally, it focus on one main subject

GAIN

OBJECTIVE:
**Equipping and empowering for
mission and evangelism**

GAIN

ACTIVITIES:
Keynote presentations,
trainings,
panels,
breakout sessions,
and intense spiritual activities.

GAIN

**Uses a variety of speakers:
production,
videography and photography,
news,
podcasting,
gaming,
technology,
innovation,
and artificial intelligence.**

GAIN

**REPORTS:
from the different regions of the World
showing how the Adventist Church
is using media and digital means
to share the gospel with the world.**

GAIN

RESULT:

**Through the years,
GAIN increased the level of
collaboration amongst
communicators and IT specialists.**

GAIN

**Since its inception in 2004,
GAIN has evolved
into a global platform
for networking,
training, and
collaboration.**

Content always goes hand in hand with technology. Technology without content is a skeleton. Content without technology is the flesh and blood of the body. The connection of technology with content makes a body. The skeleton alone is what is left of a corpse, and the muscles alone are like meat in a butcher shop. Separated, technology and content are dead. But the connection of technology and content produces life, blessing, and inspiration.

Williams Costa Jr.
